I was raised and schooled on the Central Coast of California (San Francisco and Santa Cruz areas). Ecological studies, dance and working with differently-abled children have been important activities in my life. My masters work was in Occupational Therapy, which brought me to San Diego this last year to work at Rady Children's hospital.

Flying has greatly fed my spirit in the last several years. My adventures as a co-pilot included flying around the Northwest and to AirVenture at Oshkosh, in a Cessna 172 with my sweetheart. At AirVenture I met women from The Ninety-Nines who inspired me to work toward my private pilot certificate. I passed my written test and soloed earlier this year. My training has been with two wonderful female CFIs. Currently I am working on my cross country training and have the goal of doing my check ride in December. I am very honored to receive the student pilot scholarship from the San Diego Ninety-Nines Chapter and grateful for the encouragement I have received from all the Ninety-Nines I have met. The funds will significantly help me complete my private pilot training. I look forward to meeting more members of The Ninety-Nines and contributing to this community in years to come.

The holiday season is upon us. A great opportunity for some flying. Flying to go see family, friends or to just get in a few hours on one of your available days. Whichever of these you plan on – Happy Flying Holidays.

The MB 99s will be celebrating another very active year at our December Holiday Potluck. Please bring a food item to share as we do some hangar talk and laugh over the flying related gift exchange. Theresa will be in charge of the rules of the white reindeer gift exchange. And the decorating committee will do their best to make the EAA hangar festive. We will start at 6:00pm, instead of our regular 7:00pm meeting time, and postpone the business meeting portion until the January meeting.

Last, a Tip of the Month or a New Year's resolution: Take a few minutes and make copies of your pilot records. Logbook, license, medical, etc. If lost or stolen or left at an airport you will have a backup set.
