Petra Kirk was on a cross-country flight on June, starting at WVI and planning to fly to Texas but had to make an unscheduled stop at Big Bear Airport, California.

## The Ninety-Nines Mission Statement:

"The Ninety-Nines is the international organization of women pilots that promotes advancement of aviation through education, scholarships and mutual support while honoring our unique history and sharing our passion for flight."

## Prop Wash

By Jeanne Sabankaya

This photo was a June activity that the San Luis Obispo chapter organized. They had a fly-out to the Monterey Airport arriving in 3 planes with 7 members. Mona and I drove and welcomed them to our area.

San Luis Obispo is planning another fly-out to our area. Plans are still being developed. They are planning to fly to Hollister Airport this month, eat at the restaurant and have a tour of the e-glider. More about this activity will be shared as it is available.

We are having our first in-person meeting this July at JetWest at the Salinas Airport. We will begin our alternating locations so August meeting will be in Watsonville. Please remember to sign-up to bring refreshments to the meeting. The sign-up will occur at the meetings and printed in the Logbook as a reminder.

Summer gloom has arrived. Trying to fly out of Watsonville has been a challenge for me with the low ceilings. There's such a trade-off of the mild, cool climate here along the coast seeing the fog bank hanging heavily along the coast and over the airport. When the ceiling is high enough to take-off, who's to say that when you return to the area, the ceiling is still high enough to land. This happened to me when I flew to Stockton. If I didn't have my instructor with me, I would have had to land at Hollister or San Martin. The trade-off of living in our area with the unpredictable weather is the wonderful climate verses living in a area of clear skies and torrid heat.

Blue Skies, Everyone

*"Second Weekends @ Watsonville"  
Returns in Person  
July 10 & 11, 2021*

Tenants, Pilots and interested individuals,

We would like to thank those who participated in our Virtual Historical Aircraft Display days and encourage you to join us on July 10th and 11th as we transition back to in person Second Weekends.

In 2013 Watsonville Municipal instituted a new and innovative marketing effort to encourage our based aircraft, and pilots from surrounding airports, to not only fly more often but to do so with the following in mind: (1) purchase fuel at a reduced price, (2) if applicable take advantage of historical aircraft tax exemption and (3) obtain discounts from the airport restaurant upon presenting same day fuel receipt. We can't think of any California airport that promotes General Aviation, in such practical terms, as Watsonville Muni.

Initially the "Fuel Sale/Display Day/Restaurant Discounts" trio was scheduled for Second Saturdays only but due to popularity the airport expanded the effort to a full weekend offering the lowest self-service fuel prices within 50 nm of KWVI.

The airport's fuel sale begins on the second Saturday of each month at 0800 hours and concludes the following Monday morning at 0600 hours. The Historical Aircraft Display days begins on Saturday and continues to Sunday running from 1000 hours to 1600 hours local each day.

What's in it for you? You'll be credited with two sign-offs for July 10 and July 11.

Again, thank you for your patronage and compliance.

~KWVI Management
