Prop Wash By Alice Talnack

Last month, May, was definitely scholarship month for us. First, the scholarship fundraiser—The Human Race, and then the Chapter scholarship luncheon.

My thanks to all of you who sponsored The MB99s in The Human Race. Whether you individually donated money or raised pledges, the donations were generous as always. This event has turned out to be one of our best Chapter fundraisers in the last few years. I hope we continue to support this event. This was my 11th year to participate and I was amazed at how this event continues to grow each year. Besides helping us as a non-profit, it does so much in our local community. As important, the physical training leading up to the event keeps us, as pilots, healthy.

The Chapter scholarship luncheon honored Jennifer Hastie, this year's recipient. Jennifer formerly was a Mesa Air pilot flying Canadair Regional Jets. Along with passenger jets, she has also flown an Extra 300L. At the end of March she passed her CFI certification and Watsonville Airport based business, Ocean Air, immediately offered her a job. Jennifer plans to use the MB99 scholarship to earn her CFII certification. As a working mom, who is also finishing up her bachelor's degree in Aviation Science, she obviously knows how to multi-task well and should find flight instructing to be pretty natural.

Thanks to all who attended and helped with the scholarship luncheon. The food, time to chat, and support for our honoree, was greatly appreciated by the MB99s crew that volunteered to set this event up for us. Special thanks to the scholarship committee and judges for their continuing involvement in this decade-long endeavor to support the advancement of women in aviation.

Watch those crosswinds,
Alice
