# ARE YOU PPT?

As of January 1, 2002, we have a new Proficiency Training Program format and a new Form. Awards will be based on the total number of members who participate, not just how many active pilots take part, so as not to penalize chapters with non-flying members. So let's document all those activities and get the forms in to Carolgene Dierolf, our Proficiency Training Coordinator.

## Spring Section Meeting Chapter Report

Chapter Name: **Monterey Bay**

Date: May 2, 2008

No. Members: 50

Meeting Date and Time: Third Wednesday of the month at 7:00

In June 2007, 3 of our members, Donna Crane-Bailey, Charter Members Joanne Nissen and Zoe Dell Nutter were installed in the Forest of Friendship in Atchison, Kansas.

In August Earline Arnold and Jean Schiffman flew in the Palms to Pines Air race and brought home the First Place Trophy!!

In September we did our annual Dime a Pound Rides at Watsonville Airport Open House.

In October many of us were in San Francisco for the fall Southwest Section meeting and watched the Blue Angels from San Francisco Bay.

November was a quiet month until after Thanksgiving when Anandi Heinrich and Scott Clemens brought us Weston Everett Clements on the 23<sup>rd</sup>.

On November 27, Nic Kinsman soloed!

On December 4<sup>th</sup> we helped EAA chapter 119 celebrate the season with great food and company.

On Friday Dec 7, we presented gifts for needy children on KSBW TV's "Share your Holiday."

On December 19<sup>th</sup> we met at our usual place to celebrate the season and have our famous (infamous) "Aviation Themed White Elephant" gift exchange.

In January, Chapter Chair Sarah Chauvet attended the Southwest Section Winter Business meeting in Tucson, AZ.

In April we had our scholarship BBQ honoring Michelle Ruprecht, CFI, this year's winner, at Theresa L. Byers' hangar. We worked with EAA Chapter 119 as ramp safety crew for the 4<sup>th</sup> Annual Day in The Sky.

In May several of our members attended the Spring Section meeting in Palm Springs. The Watsonville Fly-In and Air Show will keep us busy with the pilot registration booth and our information boards for The 99s.

Respectfully submitted,  
Sarah Chauvet,  
Chair  
Michaele Serasio,  
Vice-Chair

# Human Race *Making Strides, Changing Lives!*

*By Laura Barnett*

Another year has passed, a new scholarship winner awarded and it's that time again for The Human Race. Kick off those slippers and let's get walking! The Human Race is the county's largest collaborative fundraiser. This is our fifth year and to date this is what we have achieved:

2004	\$461.25
2005	\$409.50
2006	\$787.50
2007	\$1,264.67

Thanks to everyone who donated their time to walk and especially those who could not attend, but donated to this very worthy cause last year. Walkers collect donations from supporters. 75% of the money collected stays with The Monterey Bay 99s and 25% goes to the Volunteer Center. **This is a WIN-WIN fundraiser.** 100% is tax deductible. The Human Races is for everyone!

Participants with pledges of \$25 or more get free T-shirts; enjoy a free breakfast, lunch, snacks, prizes and entertainment. The course is wheelchair and stroller accessible.

Please don't hesitate to call or e-mail me for information and a race packet!

Date: Saturday, May 10, 2008

Registration begins: 7:00 AM

Where: Natural Bridges State Park

## **Your Monterey Bay Chapter is once again handling the Pilot Registration for the Watsonville Fly In. Your help is needed!**

Will you help set up the booth on Thursday morning? Help with the Registration Friday and Saturday? Meet and greet the pilots? Collect fees, hand out goody bags? Be an attendant in the booth? We'll have our booth set up for the Registration and an additional tent will display 99s literature, history, etc. I am responsible for coordinating the set-up and take down of our lovely booth as well as scheduling volunteers during our hours of operation.

Set up of the booth will be Thursday, May 22 from 10:00 am to noon.

Registration Friday, May 23 10:00 am - 2:00 pm and 2:00 pm - 6:00 pm.

Registration Saturday, May 24 8:00 am - 1:00 pm and 1:00 pm - 6:00 pm.

Sunday 10:00 am - 2:00 pm and 2:00 pm - 6:00 pm.

Please plan on spending some time with your fellow 99s and get to know them better. This is always a fun booth to be connected with. Where else can you meet so many pilots, view so many planes, and proudly wear your 99s attire?!

Parking, shuttle and wristbands will be provided to all volunteers. Volunteers will also receive the Fly In cup, patch and pin. Please call me if you have any questions 831-479-1914. I look forward to hearing from you and appreciate your help with this year's Fly In and Air Show.

Thank you,  
Teri Mantz

## ***A message to the Watsonville Pilot Community***

***From Rayvon Williams, MCFI, FAA Safety Representative – KWVI***

*May 7, 2008*

*As you may know over the recent weeks and months the Federal Aviation Administration (FAA) has been heavily scrutinized by the public, press and on capital hill. This scrutiny has found its way to our aerodrome as FAA management has made it clear all system participants (pilots, controllers, and FAA management) must understand, effective immediately, there will be no quarter given relative to pilot deviation, controller errors or management failures.*

*For pilots this effectively means the FAA will no longer allow controllers or their management to “just warn a pilot” or “simply dismiss a deviation which is obviously no harm/no foul”. Effective immediately the controllers (ground, clearance delivery, tower, approach/departure and center) must issue violations if any pilot commits a deviation, no matter how slight or seemingly innocuous. No longer a simple warning, no longer a simple phone call...but now an actual pilot deviation/violation will be issued and appropriate action taken.*

*An example of what has changed might be as follows:*

*Pilot lands and is instructed by the Tower to exit and contact Ground, Point-Seven. Pilot acknowledges. Pilot proceeds off the runway and stops. After a moment the pilot commences taxi without contacting Ground. In the past the Tower (or Ground) would inform the pilot he/she should have contacted ground before proceeding. Pilot would probably apologize, and nothing else happens.*

*Another example:*

*Pilot is told to: “Taxi to Two-Niner run-up and hold short Runway Two-Niner.” Pilot reads back instructions and begins to taxi. Pilot taxis to Two Nine, completes run-up and begins to taxi to runway. Pilot crosses hold short line, realizing mistake, turns quickly to get back in the run-up area. No aircraft was cleared to land/no aircraft was on final. In the past the tower would have given the pilot a number to call. Pilot would call, based on his/her mea culpa attitude, nothing would have happened.*

*Final example:*

*Pilot departing Palo Alto north bound under class Bravo. Violates Class B by 200 feet for 15 seconds and corrects just as Departure informs of bust. In the past the pilot might have received a warning and/or a number to call. Beginning immediately pilots should expect to receive a Class Bravo violation and find themselves in the San Jose FSDO office shortly thereafter.*

*Going forward, in these examples and others you can easily construct, the FAA is requiring controllers to no longer provide any leeway and as such we (the local pilot community) must be on guard against any deviation or infraction. This note should not be interpreted as a “we are out to get you” or construed as a plan to restrict our freedom of flight; in fact the mere fact local FAA resources have reached out requesting our help should be viewed similar to the pilot/controller partnership we rely upon every time we fly.*

*Based on a recent discussion with Jim Babcock, FAA Tower Manager of Monterey (KMRY) I am requesting members of Watsonville Pilots Association, EAA Chapter 119, Monterey Bay 99s, all Watsonville FBOs and Flight Schools/Flight Clubs to encourage their members, customers and the local pilot community to be ever vigilant, continue our excellent safety record and be re-commit to communicating the importance of safety.*
