Thanks to everyone for helping at the airshow. Everyone's help is what keeps us being able to do this year by year. For those of you that couldn't attend we had a decent turn out. We had some of the same pilots and we had a few new pilots fly in. What always surprises me is that the same pilots ask the same questions every year. Must be because they go to so many fly in's and they can't remember procedures and schedules for all of them.

A few days ago I got a chance to fly to a new airport. I flew into South Lake Tahoe, the view was amazing, the service was friendly and the food there was really good. During our weather briefing the briefer mentioned a temperature of 3 degrees. It was colder when we got there than when we left Watsonville. Arriving at South Lake Tahoe reminded me of how lucky we are to have sea level airports and decent weather temperatures year round. I fortunately had a jacket in my car that I was able to take with me and put on when we landed. My student was not so lucky, but the heated FBO was a nice relief. My failure was to remember to consider the weather at the destination and be prepared for something other than perfection when leaving the local area. Make sure you don't repeat my error. Remember it's fall and almost winter, it's time to think of icing too.

Fly Safe, Fly Often.

50th Anniversary Watsonville Fly-In and Air Show

October 11-12, 2014

Thanks to all of the MB99s for helping this weekend. A great team! Special thanks to Mike Barnett for helping set up the booth and take it down. Also, to Joanne Nissen for letting us borrow Joe and E.J. for set up on Friday.

Alice

This year was the 50th Watsonville Fly-in and Airshow. There were many aircraft of outstanding quality and workmanship. The Grand Champion is an immaculate 1932 Waco QDC Biplane, see the photos on the web site <http://watsonvilleflyin.org/pdfs/WVI-2014-awards.pdf> The weather was fantastic, we had a lot of fun and we'll do it again next year. I would like to thank Alice Talnack for obtaining the very nice awards we presented this year, and The 99s for their operation registering aircraft. I also thank all those people who participated in the judging efforts; without your efforts EAA119 would not be able to perform aircraft judging.

'A family of its own'

Theresa Byers was living in Los Angeles in the 1970s when, on a Memorial Day weekend, she launched on a pleasure flight up the coast to Watsonville and Scotts Valley. She had hoped to land in Watsonville, but a temporary control tower was in effect, and she was informed that the airport was closed.

Later she returned to Watsonville for a weekend visit.

"A year later I was working here," she said in a phone interview from the office of the (usually nontowered) Watsonville Municipal Airport. "This is God's Country, just a really nice area."

Byers is a self-described pleasure pilot who makes "big holes in the sky" as the owner of a 1960 Cessna Skylark. That's the Model 175, a Skyhawk-family aircraft with a geared 175-horsepower Continental GO-300C engine, manufactured from 1958 to 1962.

What's special about her home airport?

With two runways, and located just a bit inland from Monterey Bay, Watsonville has a country feel, but it can be a busy place. The airport is home base to about 400 aircraft, including several bizjets, she said.

But most of all, "I love the fact that it is non-tower."

Byers works on special projects for the airport, but on this fall day the temperature is still in the 60s, and she would rather be out flying, or at least spending time outdoors, fueling airplanes, working on the ramp, chatting with whoever may taxi in next.

"Flying is kind of a family of its own," she says.

Mentoring Help Needed November 22

Hello Ladies,
I am looking for a few volunteers to attend this wonderful opportunity and speak to young ladies about aviation and the 99s. Below is the invitation that I received from Amy Ross the coordinator. I will be there to set up and for a while. I will have to leave near the end to work, so I will need someone to help take any left over items back. If you are able and willing to help please let me know.

Claudia Contreras
Monterey Bay 99s

Dear Monterey Bay 99s,

The Lyceum of Monterey County is pleased to present the 5th annual progressive conference and career fair to young women in grades 5-10 called Expanding Your Horizons.

This event is scheduled to take place on Saturday, November 22nd, 2014 at Hartnell College's Steinbeck Hall. We are looking for industry professionals, working in the STEM fields (Science, Technology, Engineering and Mathematics), to set-up exhibit tables and share information with these young ladies. Exhibits will be open from 11:30 am to 1:00 pm. The 270+ female participants will be asking questions and learning about STEM career opportunities available to them in their local area. In addition to the exhibit time, the girls will be attending workshops throughout the day and engaging in fun and challenging hands-on activities.

If possible, we would really appreciate female exhibitors to act as professional role-models for these young women. Please let us know if you are interested in participating in this unique opportunity to share your knowledge and experience with our future female leaders. If you plan to participate, please reply to this email by Friday, October 24th. Thank you in advance for your involvement in the community and investment in our local youth!

Sincerely,
Amy Ross
Expanding Your Horizons Exhibits Coordinator

SHARE YOUR HOLIDAY

Friday, December 12, 6:45 P.M.

Once again we will have a slot on the air on KSBW to donate aviation-related toys for children. Some of you have been following Laura Barnett's suggestion earlier this year to pick up one toy each month. But, whether you have one toy or 12, join us on the air and show the community just who the Monterey Bay Ninety-Nines are and help make the holidays a little bit happier for local children.

2015 SWS Meeting and Chapter 50th Anniversary October, 2015

Joanne Nissen is seeking volunteers to contact potential sponsors of our upcoming event. This is a wonderful opportunity to really let the aviation community know all that we do and invite them to join with us. She has developed a list of potential business sponsors, but you are more than welcome to suggest possibilities, also.

A letter is available to use in contacting the various businesses. To obtain a copies of the letter for your use, please contact Donna Crane-Bailey at donnab210@sbcglobal.net to get a printable file.

Copies of the letter will be available at the Chapter meeting on November 19, also, along with copies of the potential donor list.

Everybody's help is needed to make this a successful meeting. Let's show the Section and aviation community just what a dynamic group the Monterey Bay Chapter is.

Suggestions are welcomed.

Fall of 2014

address of firm

Dear Friend of Aviation:

The Monterey Bay Chapter of The Ninety-Nines, Inc., a nonprofit international organization of women pilots, is celebrating its 50th anniversary in October 2015. We know you are a supporter of aviation, but may not be aware of what The Ninety-Nines is and all that its members do. Let us tell you!

There were 99 original members of this organization with Amelia Earhart as the first president. Our members are active participants in all facets of aviation, from astronauts to military pilots, flight instructors to jump pilots, airshow acts to ag pilots, corporate and airline pilots to women who fly for the fun of it. We offer flying companion seminars to explain what keeps a plane in the air, programs for girl scouts to earn badges and we participate in science and math studies introducing aviation as a possible career. Our members regularly offer rides to the public so they can see their community from the air and better appreciate the role aviation plays in enhancing their lives. We mark airports with their name and often tower frequencies, thus carrying on a tradition from aviation's infancy. We offer aviation scholarships, facilitate seminars for the flying community, give airport tours to promote aviation's value to the community. In other words, Ninety-Nines do good things for aviation!

In honor of our special anniversary, we are hosting a gathering of women pilots and their guests from all over the Southwest to be held in Santa Cruz on October 22 to 25, 2015. We invite you to be a supporter of this anniversary celebration and assist our continued advocacy for aviation. Please join us at the celebration or for the tour of Cal Pacific Airmotive, the restorers of P51s located at the Salinas Airport.

Support levels are shown below. However, you are not limited to those amounts should you desire to do so.

First level	\$100	ground crew
Second level	\$250	right seat
Third level	\$500	left seat

Every Little Bit Helps!

Laser & Inkjet Cartridge Recycling

An EASY way to earn money for the Chapter

By Laura Barnett

During the October meeting I presented an idea for a very easy way to bring in a little extra cash to our Chapter—recycling laser and inkjet cartridges. The post office used to have prepaid envelopes to send off your used ink cartridges. Unfortunately, they have discontinued the program for their customers. I have found an online company that will pay for specific empty laser and inkjet cartridges, so I suggested that we give this a try. I was initially going to do this for myself until I realized that you to send at least 15 inkjets or 10 lasers per box. It would have taken me a year for to reach that goal on my own! If you're interested in recycling your cartridges and making a LITTLE extra money for our Chapter, bring the specific cartridges on the list below to each meeting and I'll take care of the rest.

Prices subject to change without notice. Current prices are available [here](#).

We accept remanufactured and non print head ink jets for recycling but we only pay for originals that are undamaged and have print heads - see payment list below.
