By Joanne Nissen

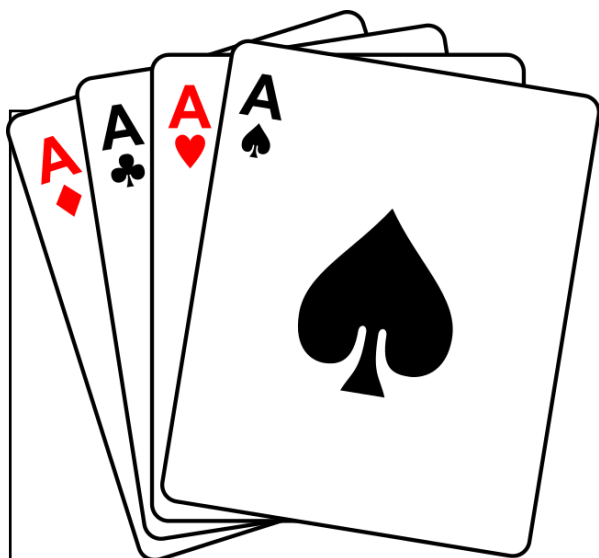

With part of my mind focused on getting myself to Lancaster for the Fall Southwest Section event, the other part is reminded that last year about this time, we as a chapter were readying ourself to host fellow 99s as they arrived in Santa Cruz for the Fall Section AND to celebrate our 50th anniversary as a chapter. With Geneva urging me on, I was baking cookies to stick in the freezer to make certain we had enough for the Hospitality Room.....we had waaaaayyyy too many cookies (thanks Geneva), however they were distributed thru-out the Chaminade Resort staff, we left folks happy with crumbs on their shirts!! So as we pivot back to *regular* 99 doings, it was fun to see the excitement of new and ongoing projects/adventures coming up. Future pilot, Sophia has her 99 pin. Perhaps we can convince those two new student pilots from the STEM program to join us.....then Katrina needs to 'properly' join us to gain her pin....and we will grow!! Kay, Carolyn and Laura are going to explore ways to come up with 99 aviation toys for KSBW's Share Your Holidays...how exciting it will be to see all those toys on TV. There is excitement to record more of the oral histories of our members....Carolyn and Alice will see that program gets underway. Look over our minutes to see some of the other subjects we covered. **And note**, with the minutes appearing in the LOG-BOOK, bring corrections to the meeting as those minutes will not be read, we will simply make any changes then vote to approve.

Keep your eye on the **LOGBOOK** as Jeanne will be covering some of these upcoming projects in the newsletter via Committee reporting. When Kay, Carolyn or Laura contact you for some aviation themed **toys**.....either deliver or throw a few dollars in the kitty to help us reach our goal. Once we get a count on those already collected, we will note how many more we need to gather. Don't forget to support **Donna** as she heads into her chemo treatments. See the reminder on the upcoming events of the **NI-FA** event to be held in November at Hillview Airport. The International 99s support this ongoing aviation competition between colleges.....NIFA can always use help, perhaps a group of us will be able to go up on Thursday or Friday....or both days!!

October meeting is back in Watsonville, but you get to come back to Salinas in November!!! If our meeting times do not work for you....let me know what would work for you as we are known to deviate from past routines and try something new.....just like ATC giving a new routing!!

Blue Skies and Tailwinds, Joanne

MOVIE PREVIEW ON "SULLY"

(movie released for viewing September 2016)

On Jan. 15, 2009, Capt. Chesley "Sully" Sullenberger (Tom Hanks) tries to make an emergency landing in New York's Hudson River after US Airways Flight 1549 strikes a flock of geese. Miraculously, all of the 155 passengers and crew survive the harrowing ordeal, and Sullenberger becomes a national hero in the eyes of the public and the media. Despite the accolades, the famed pilot now faces an investigation that threatens to destroy his career and reputation.

NIFA Region II Competition-hosted by San Jose State University

I know November is a way off, but I like to give you all a chance to get the dates on the calendar before other events come up. The competition will be held at Reid-Hillview (RHV) east of San Jose from November 15-19, 2016. NIFA has developed a new scoring program and registration for judges. Go to www.nifa.aero/chief-judge/region-2/ and click the link on the right hand side to access the form. It will take a minute or so to fill out.

You can also click on the link to Region II competition for more information. Right now, the website is not populated with all the information. San Jose is still finalizing hotel information. I can tell you that Navigation is set for Wednesday, Landings on Thursday and Message Drop on Friday. Of course, as always, weather rules.

I know there are names that I missed with this e-mail. Please share the information with your pilot friends, and other 99s in case they would like to join us.

Safe Flying,

Virginia Harmer

Special Jeppesen chart and binders honor the crew of the "Miracle on the Hudson" US Airways flight 1549

NEW YORK, NY HUDSON MIRACLE APCH	
Ground 121.7	Emergency 121.5
Apt Elev 22'	US AIRWAYS Flight 1549 January 15, 2009 Airbus A-320
d) TDZE WET	150 Passengers + 5 Crew 155 Survivors
or water it via HUDSON boats, secure . Give THANKS.	
required. 5 minutes. es program.	

Jeppesen, known in the aviation industry as the worldwide leader in navigation and charting services, recently presented “Miracle on the Hudson” pilots captain Chesley Sullenberger and first-officer Jeffrey Skiles with a specially designed approach chart and engraved Jeppesen chart binders to commemorate the remarkable ditching of US Airways flight 1549 in the Hudson River in New York in January 2009.

Entitled “Hudson Miracle APCH,” the one-of-a-kind chart includes several light-hearted notations that honor the famous water landing that saved the lives of 155 passengers and crew on board the flight disabled by bird strikes. In the “briefing strip” section of the chart, instructions include: “After water landing, oversee evacuation of ALL SOULS from airplane. Float via HUDSON RIVER to RESCUE point. Once everyone is SAFE aboard rescue boats, secure passenger list and double check cabin. Captain is last to exit. Give THANKS.”

The chart documents the historic five minute flight with a unique graphic, beginning with departure from LaGuardia Airport, followed by a “Cooked Goose Transition” point and “Hudson River Approach,” which is then followed by “Splash” and “Rescue” points on the water. The humorous chart also salutes the career achievements of the crew of flight 1549, including Sullenberger, Skiles, and veteran flight attendants Sheila Dail, Donna Dent and Doreen Welsh.

Along with the commemorative chart, the pilots were presented with a special Jeppesen chart binder, engraved with the famous fortune cookie advice kept in Sullenberger’s flight bag: “A delay is better than a disaster.” The items were presented by Mark Van Tine, Jeppesen president and CEO, during the 2010 Gathering of Eagles fundraiser dinner and auction held during the EAA AirVenture fly-in and air show in Oshkosh, Wisc. The EAA Young Eagles event raises funds and awareness for youth involvement in aviation.

About Jeppesen: For more than 75 years Jeppesen has made it possible for pilots and their passengers to safely and efficiently reach their destinations. Today this pioneering spirit continues as Jeppesen delivers essential information and optimization solutions to improve the efficiency of air, sea and rail operations around the globe. Jeppesen is a subsidiary of Boeing Commercial Aviation Services, a unit of Boeing Commercial Airplanes.

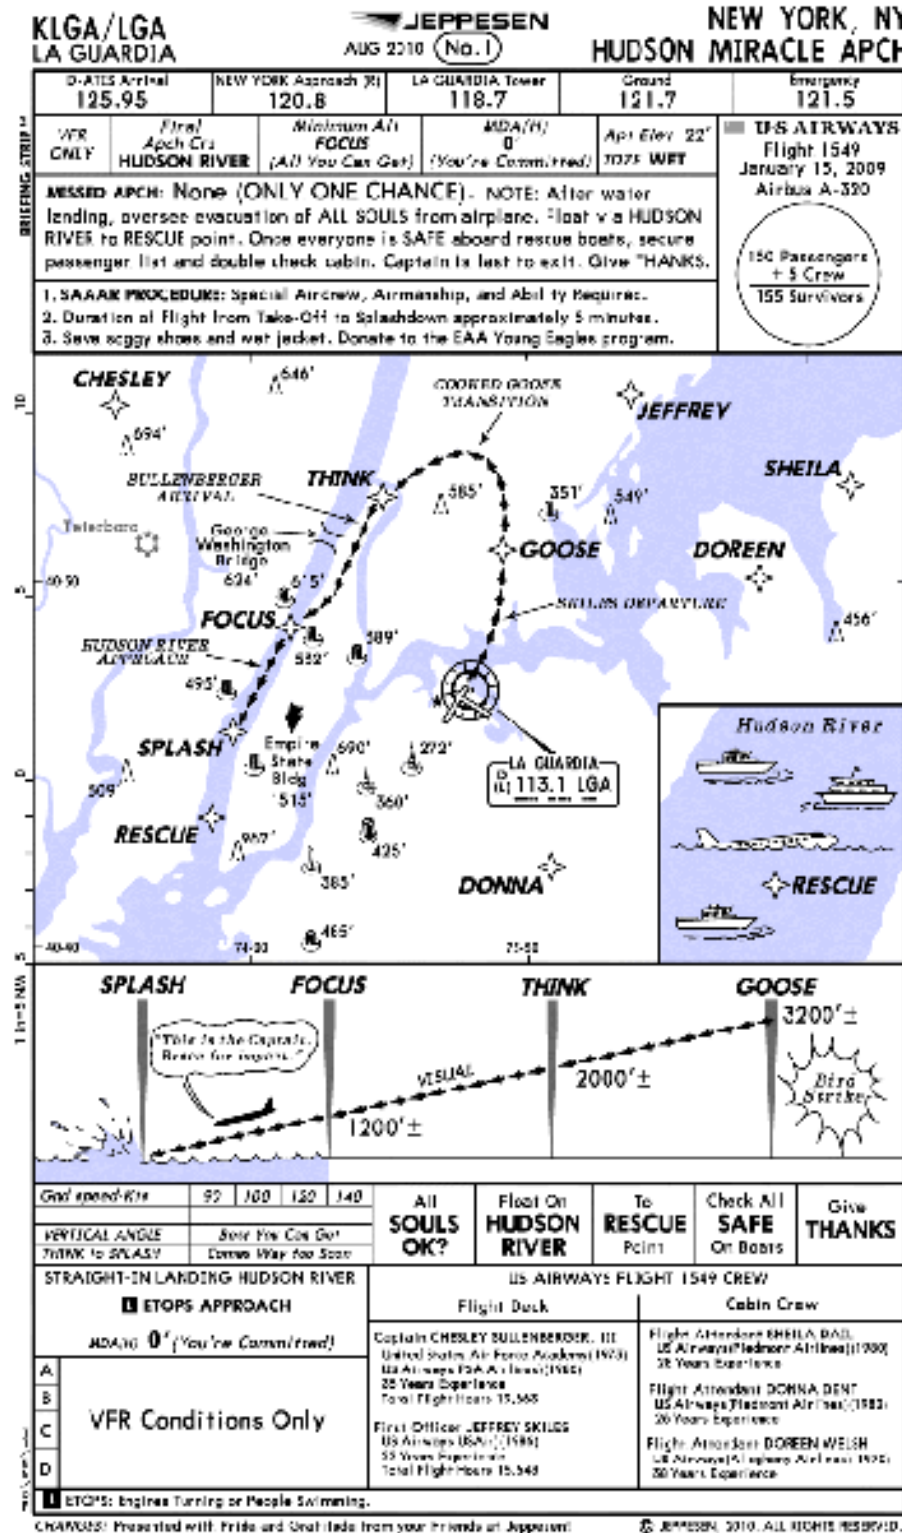

COULDN'T DO IT WITHOUT YOU

Thank you, everyone, for offering and/or coming out to help before and during the Wings over Watsonville (WOW) event. Without you, it would have been difficult to set-up & take-down the Ninety-Nines booth, sell items, and register pilots. A special “thank you” to Mike Barnett who did the heavy moving of the booth parts during the “take-down.” Also, a special “thank you” to Emily, Sophia’s sister who made airplane necklaces and donated them to our fundraiser.

HUDSON MIRACLE APPROACH

Note the “Cooked Goose Transition” This is a one-time deviation from Jeppesen’s seriousness and an opportunity to invoke humor to an otherwise dangerous water landing.

Take Flight

Program Mission

S.A.F.E. program students are formed as self-aware citizens who are ethically, intellectually and scientifically prepared to advance the world in their chosen field and their community.

Career Pathway

Experience a variety of career avenues related to the field of transportation. Work experience, skills training and career preparation are a focus.

Program Overview

MCOE Alternative Education

Department is proud to present the S.A.F.E. STEAM Pathway Program. Teamed with community partners Every Kid Can Fly/Young Eagles, NASA/MAA, Hartnell Community College and Tuning Point, students gain invaluable life and academic experiences as they train in the following fields: Transportation, Robotics, Dispatch, Ground School, Welding, Ag Mechanics and Avionics. These trainings prepare students for field internships, college trade courses, and award core credit advancement toward graduation.

STEAM Focus

Explore Science, Technology, Engineering and Math through a thematic, cross-curricular curriculum grounded in P-125+ standards.

Character, perseverance, and ingenuity...

are at the forefront as students strive to achieve their academic and career goals. Core academics are completed through a blended learning program incorporating college courses, cross-crediting and project based learning in a brick and mortar and online classroom. Students learn to fly on airplanes by helping one-on-one with a flight instructor, learn through flight simulations and problem based interactive in the MAA lab. In the field and in the classroom students are expected to hold high standards of care and commitment to themselves, colleagues and the community.

Project Based

Engage in rigorous, inquiry-based projects to meet cross-curricular, credit, requirements and career goals.
